

HOUGHTO-CLEAN 330

Aqueous Alkaline Hard Surface Cleaner

DESCRIPTION

HOUGHTO-CLEAN 330 is an alkaline hard surface cleaner formulated specifically for housekeeping cleaning requirements within the manufacturing environment.

APPLICATIONS

HOUGHTO-CLEAN 330 has been formulated for the cleaning of industrial floors, walls, machinery and other alkaline resistant surfaces.

The combination of surfactants and alkaline builders make this product ideal for usage with automatic floor cleaning equipment and for manual cleaning techniques.

RECOMMENDATION FOR USE

Automatic floor scrubbers = 2 - 4% v/v

Manual cleaning techniques = 3 - 5% v/v

A titration test method for concentration is available on request.

TYPICAL PHYSICAL PROPERTIES

<i>Appearance</i>	<i>Clear yellow liquid</i>
<i>Specific Gravity</i>	<i>1.03</i>
<i>pH in Use</i>	<i>Typically 11 -12</i>
<i>Refractometer Factor</i>	<i>5</i>

BENEFITS

- Low foaming for usage with automatic floor scrubbers
- Free rinsing formulation
- Multifunctional for reduced product inventory
- Formulated specifically for the industrial environment

RELATED PRODUCTS

Houghton is a market leader in the development and supply of manufacturing process fluids. The HOUGHTO-CLEAN range of industrial cleaners have been developed to compliment and work synergistically with these and particularly with our machining, forming, quenching and similar products.

STORAGE

Please refer to section 7 of Safety Data Sheets for handling and storage information, including product shelf life. Product should be stored under cover in clean, dry conditions and protected from frost. Recommended storage temperature is usually between 5°C and 40°C unless otherwise specified. Use stock in delivery rotation.

HEALTH AND SAFETY

Safety data sheets are available in accordance with Regulation (EC) No 1907/2006 Annex II where a substance or preparation meets the criteria in accordance with Directives 67/548/EEC or 1999/45/EC.
