

# TEST SCOPE for all-inclusive ANALYSIS KITS

**1HFC**

Hydraulic fluids HFC  
Kit 1 - HFC

**2HFC**

Hydraulic fluids HFC  
Kit 2 - HFC

**3HFC**

Hydraulic fluids HFC  
Kit 3 - HFC

**4HFC**

Hydraulic fluids HFC  
Kit 4 - HFC

**5HFC**

Hydraulic fluids HFC  
Kit 1 - HFC

**OELCHECK  
recommendation  
Hydraulic fluids HFC  
Example lab-report**

## Test results

Elements with RDE  
PQ index  
Viscosity 40 °C  
Visual evaluation  
pH value

## Test results

Elements with RDE  
PQ index  
Viscosity 40 °C  
Visual evaluation  
pH value  
Water acc. to Karl Fischer

## Test results

Elements with RDE  
PQ index  
Viscosity 40 °C  
Visual evaluation  
pH value  
Water acc. to Karl Fischer  
Reserve alkalinity

## Test results

Elements with RDE  
PQ index  
Viscosity 40 °C  
Visual evaluation  
pH value  
Water acc. to Karl Fischer  
Reserve alkalinity  
Solid contaminants

## Test results

Elements with RDE  
PQ index  
Viscosity 40 °C  
Visual evaluation  
pH value  
Water acc. to Karl Fischer  
Reserve alkalinity  
Solid contaminants  
Density

## ANALYSIS KIT (all-inclusive)

- Original OELCHECK sample-bottle (100 ml) for analyses in the laboratory in Germany.
- Pre-addressed envelope.
- UPS return service (within Germany free of charge).
- Sample Information Form including an adhesive barcode label.
- Laboratory tests within 48 hours.

- Laboratory Report completed by a very detailed diagnostic statement of a mechanical engineer.
- Detailed representation can only be carried out at additional costs.
- Dispatch of the Laboratory Report via email, mail or fax.
- Password-secured online access to your laboratory reports and analysis data at [www.lab.report](http://www.lab.report).
