

# TEST SCOPE for all-inclusive ANALYSIS KITS

## ISO1

Transformer oils  
ISO 1

## ISO2

Transformer oils  
ISO 2

## ISO3

Transformer oils  
ISO 3

## ISO4

Transformer oils  
ISO 4

## ISO5

Transformer oils  
ISO 5

**OELCHECK  
recommendation  
Transformer oil  
Example lab-report**

### Test results

Dissolved gases (DGA)

### Test results

Viscosity 40 °C  
Dissolved gases (DGA)  
Electric breakdown voltage  
Water acc. to Karl Fischer  
Colour index

### Test results

Viscosity 40 °C  
Dissolved gases (DGA)  
Electric breakdown voltage  
Water acc. to Karl Fischer  
Colour index  
Oxidation  
Neutralisation number (NN)  
Dielectric dissipation factor

### Test results

Viscosity 40 °C  
Dissolved gases (DGA)  
Electric breakdown voltage  
Water acc. to Karl Fischer  
Colour index  
Oxidation  
Neutralisation number (NN)  
Dielectric dissipation factor  
Density  
Elements with ICP  
Interface tension

### Test results

Viscosity 40 °C  
Dissolved gases (DGA)  
Electric breakdown voltage  
Water acc. to Karl Fischer  
Colour index  
Oxidation  
Neutralisation number (NN)  
Dielectric dissipation factor  
Density  
Elements with ICP  
Interface tension  
Particle identification  
MPC test

## ANALYSIS KIT (all-inclusive)

- Original OELCHECK sample-bottle (100 ml) for analyses in the laboratory in Germany.
- Pre-addressed envelope.
- UPS return service (within Germany free of charge).
- Sample Information Form including an adhesive barcode label.
- Laboratory tests within 48 hours.

- Laboratory Report completed by a very detailed diagnostic statement of a mechanical engineer.
- Detailed representation can only be carried out at additional costs.
- Dispatch of the Laboratory Report via email, mail or fax.
- Password-safed online access to your laboratory reports and analysis data at [www.lab.report](http://www.lab.report).
